EDUCATION

University of Washington

Seattle, WA

B.S. Computer Science

Coursework: Data Structures and Parallelism, Software Design, Distributed Systems, Artificial Intelligence, Database Management, Computer Security

PROJECT EXPERIENCE

Distributed System

- Designed and implemented a transactional key-value store in Java with the Multi-Paxos consensus algorithm
- Implemented leader election and log replication to handle node failures, to keep the system fault-tolerant and running reliably
- Added key-value sharding across Paxos groups with a load balancer to improve performance, availability, and scalability
- Led code reviews and coordinated Google Meet sessions to plan out project tasks and fix bugs

Husky Maps

- Built a web app with a map of the school's campus to compute the shortest path between two UW campus locations using the A* search algorithm
- Used Spark to process graph data and build the Java backend server, and used React for the frontend
- Implemented REST-style JSON data exchange and deployed the app onto Heroku

AI Pac-Man

- Implemented Minimax and Expectimax search algorithms to design agents capable of navigating any number of ghosts
- Developed a reflex agent with Q-Learning that learns from interactions with the environment, improving Pac-Man's decision-making and survival against ghosts
- Applied Python and reinforcement learning techniques to test and improve agent performance

TECHNICAL SKILLS

Programming: Java, Python, C, C++, C#, JavaScript, HTML, CSS, SQL

Frameworks/Technologies: Spring Boot, Spark (Java), Node.js, Express.js, React, MySQL, MongoDB

Tools: AWS, Azure, Git, Linux, IntelliJ, VS Code, Heroku, Tableau, Unity

WORK EXPERIENCE

Uniqlo

Seattle, WA

Sales Associate

Aug 2024 - Aug 2026

- Trained and mentored new hires on customer service standards, store operations, and inventory procedures
- Supported back-of-house operations for online fulfillment and inventory replenishment by assigning tasks, guiding teammates, and prioritizing daily workflows during peak hours

Whole Foods Market

Seattle, WA

Amazon Shopper

July 2019 - Nov 2019

- Picked, packed, and processed online grocery orders for delivery using a handheld scanner and inventory-management software, resolved out-of-stock issues by recommending alternatives, and maintained a high on-time delivery rate and positive customer feedback
